- 1gram Size 11 seed beads
- 1 20mm flower
- 1 25mm ring bezel

### Tools

- E6000 glue
- Ring box or bowl of rice

# Pretty Keepsake Ring

By Laurina Grice

### To make

Ensure your bezel is clean. Apply a 20mm circle of glue in the centre of the ring bezel. Cover the glue with the seed beads. Apply glue to the back of the flower and place the flower on top of the seed beads – you will need a good dab of glue to adhere the flower back to the bead of seed beads. Place your ring into a ring box or bowl of rice to keep it upright. Flip the glass dome upside down and place a few more seed beads into the dome – these will help to fill any gaps in the seed beads you have glued to the bezel already. Cover the edge of the glass dome with glue and then place the dome's glued edge into the bezel. Leave to dry for 72 hours.
